### 1 Identification

#### · Product identifier

- · Product number CLC20
- · Trade name: Binder for solv. based stains
- · Relevant identified uses of the substance or mixture and uses advised against A coating composition for water-based coating and / or decoration of wooden artefacts
- · Application of the substance / the mixture For professional use

#### · Details of the supplier of the safety data sheet

- · Manufacturer/Supplier: IVM Chemicals srl Viale della Stazione 3 - 27020 Parona (PV) Italy tel +39 038425441
- · Information department: Environmental Health and safety office hseoffice@ivmchemicals.com
- · Emergency telephone number:
- ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

## 2 Hazard(s) identification

#### · Classification of the substance or mixture

GHS08 Health hazard

H351 Suspected of causing cancer. Carc. 2

STOT RE 2 H373 May cause damage to organs through prolonged or repeated exposure.

Eye Irrit. 2A H319 Causes serious eye irritation.

#### · Label elements

· GHS label elements

The product is classified and labeled according to the Globally Harmonized System (GHS). · Hazard pictograms

- · Signal word Warning
- · Hazard-determining components of labeling:
- 2,2'-iminodiethanol
- · Hazard statements
- H319 Causes serious eye irritation.

H351 Suspected of causing cancer.

- H373 May cause damage to organs through prolonged or repeated exposure.
- · Precautionary statements

P260 Do not breathe dust/fume/gas/mist/vapors/spray.

P280 Wear eye protection / face protection.

P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF exposed or concerned: Get medical advice/attention.

P308+P313

# 4 First-aid measures

## · Description of first aid measures

🚯 Skin Sens. 1, H317

• General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

· After inhalation: Supply fresh air; consult doctor in case of complaints.

Aquatic Acute 1, H400; Aquatic Chronic 1, H410

- · After skin contact: Generally the product does not irritate the skin.
- After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: Do not induce vomiting; immediately call for medical help.
- Information for doctor:
  - · Most important symptoms and effects, both acute and delayed
    - For symptoms and effects caused by substances, refer to Section 11.
  - Indication of any immediate medical attention and special treatment needed No further relevant information available.

## 5 Fire-fighting measures

- Extinguishing media • Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

· Protective equipment:

Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device.

## 6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures** Ensure adequate ventilation Keep away from ignition sources
- Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water.
  Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to Section 13.

Reference to other sections
No dangerous substances are released.
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

## 7 Handling and storage

- · Handling:
  - Precautions for safe handling No special precautions are necessary if used correctly.
  - · Information about protection against explosions and fires: No special measures required.

#### · Conditions for safe storage, including any incompatibilities

- · Storage:
  - Requirements to be met by storerooms and receptacles:

Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.

In cases where there is no reported expiration date , it means that the product must be used within 8 months.

Take on temperature greater than 5 °C

- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

### 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

#### · Control parameters

· Components with limit values that require monitoring at the workplace:

#### 102-71-6 2,2',2"-nitrilotriethanol

TLV Long-term value: 5 mg/m<sup>3</sup>

### 111-42-2 2,2'-iminodiethanol

REL Long-term value: 15 mg/m<sup>3</sup>, 3 ppm

- TLV Long-term value: 1\* mg/m<sup>3</sup>, 0.2\* ppm
  - Skin; \*inhalable fraction and vapor

• Additional information: The lists that were valid during the creation were used as basis.

#### · Exposure controls

- · Personal protective equipment:
  - · General protective and hygienic measures: Wash hands before breaks and at the end of work.
  - · Breathing equipment: Not required.
  - · Protection of hands:

Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

The glove material has to be impermeable and resistant to the product .

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- · Penetration time of glove material
- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- · Eye protection: Goggles recommended during refilling.

#### 9 Physical and chemical properties · Information on basic physical and chemical properties · General Information · Appearance: · Form: Fluid · Color: According to product specification · Odor: Characteristic · Odour threshold: Not determined. · pH-value: Not determined. · Change in condition Undetermined. • Melting point/Melting range: · Boiling point/Boiling range: 100 °C (212 °F) 100 °C (212 °F) · Flash point: · Flammability (solid, gaseous): Not applicable. 305 °C (581 °F) · Ignition temperature: (Contd. on page 5) US

## 10 Stability and reactivity

· Reactivity typical of the product as indicated in the data sheet

- Chemical stability The product is stable in normal conditions of storage and use recommended • Thermal decomposition / conditions to be avoided:
  - No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.
