#### **1** Identification

- · Product identifier
  - · Product number HGT6073
  - Trade name: WB INT PIGM TOP-COAT 30 SH • Application of the substance / the mixture For professional use

#### · Details of the supplier of the safety data sheet

- *Manufacturer/Supplier:* IVM Chemicals srl Viale della Stazione 3 - 27020 Parona (PV) Italy tel +39 038425441
- Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
- Emergency telephone number: ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

## 2 Hazard(s) identification

#### • Classification of the substance or mixture The product is not classified according to the Globally Harmonized System (GHS).

#### · Label elements

- · GHS label elements Not applicable
  - · Hazard pictograms Not applicable
  - · Signal word Not applicable
  - · Hazard statements Not applicable

#### · Classification system:

· NFPA ratings (scale 0 - 4)

· HMIS-ratings (scale 0 - 4)

HEALTHImage: OHealth = 0FIREImage: OFire = 0REACTIVITYReactivity = 0

## 3 Composition/information on ingredients

#### · Chemical characterization: Mixtures

· Description: Mixture: consisting of the following components.

· Dangerous components:		
111-76-2	2-butoxyethanol	1-2.49%
	<ul> <li>Acute Tox. 4, H302; Acute Tox. 4, H312; Acute Tox. 4, H332; Skin Irrit. 2, H315; Eye Irrit. 2A, H319</li> <li>Flam. Liq. 4, H227</li> </ul>	
34590-94-8	(2-methoxymethylethoxy)propanol	1-<5%
	Flam. Liq. 4, H227	

## 4 First-aid measures

· Description of first aid measures

· General information: No special measures required.

Product number HGT6073 Trade name: WB INT PIGM TOP-COAT 30 SH

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- · After eye contact: Rinse opened eye for several minutes under running water.
- · After swallowing: If symptoms persist consult doctor.
- · Information for doctor:
  - Most important symptoms and effects, both acute and delayed
    - For symptoms and effects caused by substances, refer to Section 11.
  - · Indication of any immediate medical attention and special treatment needed
  - No further relevant information available.

#### 5 Fire-fighting measures

#### · Extinguishing media

- Suitable extinguishing agents: Use fire fighting measures that suit the environment. • Special hazards arising from the substance or mixture
- Formation of toxic gases is possible during heating or in case of fire.

· Advice for firefighters

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

· Protective equipment: No special measures required.

#### 6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Not required.

#### • Environmental precautions:

Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

• Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to Section 13.

· Reference to other sections

DAC 1

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

## 7 Handling and storage

· Handling:

- · Precautions for safe handling No special measures required.
- · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
  - · Storage:
    - Requirements to be met by storerooms and receptacles:
    - Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.

In cases where there is no reported expiration date , it means that the product must be used within 8 months.

Take on temperature greater than 5 °C

- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.

• Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

#### 8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

· Co	$\cdot$ Components with limit values that require monitoring at the workplace:

BEI 200 mg/g creatinine

Medium: urine

Time: end of shift

Parameter: Butoxyacetic acid with hydrolysis

· Additional information: The lists that were valid during the creation were used as basis.

#### · Exposure controls

- · Personal protective equipment:
  - General protective and hygienic measures:
  - The usual precautionary measures for handling chemicals should be followed.
  - · Breathing equipment: Not required.
  - · Protection of hands:

Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

The glove material has to be impermeable and resistant to the product .

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection: Goggles recommended during refilling.

## 10 Stability and reactivity

· Reactivity typical of the product as indicated in the data sheet

- Chemical stability The product is stable in normal conditions of storage and use recommended • Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.
- · Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

#### **11 Toxicological information**

## **13 Disposal considerations**

#### · Waste treatment methods

- · Recommendation:
  - Hand over to hazardous waste disposers.
- Dispose of contents and container in accordance with local state and federal regulations.
- · Uncleaned packagings:
  - Recommendation: Disposal must be made according to official regulations.
  - Recommended cleansing agent: Water, if necessary with cleansing agents.
