Printing date 09/18/2015

Version number 51

Reviewed on 09/18/2015

1 Identification

· Product identifier

- · Product number LNB29
- · Trade name: Hardener
- Relevant identified uses of the substance or mixture and uses advised against Paint and relative material only for wood • Application of the substance / the mixture For professional use

· Details of the supplier of the safety data sheet

- Manufacturer/Supplier: IVM Chemicals srl Viale della Stazione 3 - 27020 Parona (PV) Italy tel +39 038425441
- Information department: Environmental Health and safety office hseoffice @ivmchemicals.com
- Emergency telephone number: ChemTel Expert Assistance Hotline/SDS Fax Access by dialing 1-800-255-3924 or for International +1-813-248-0585.

2 Hazard(s) identification

· Classification of the substance or mixture

<u>*</u>	GHS02	Flame
----------	-------	-------

Flam. Liq. 2 H225 Highly flammable liquid and vapor.

GHS08 Health hazard

Resp. Sens. 1	H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
Carc. 2	H351	Suspected of causing cancer.
STOT RE 2	H373	May cause damage to the hearing organs through prolonged or repeated
		exposure.

GHS07

•		
Acute Tox. 4	H332 Harmful if inhaled.	
Eye Irrit. 2A	H319 Causes serious eye irritation.	
Skin Sens. 1	H317 May cause an allergic skin reaction.	
STOT SE 3	H336 May cause drowsiness or dizziness.	

· Label elements

- · GHS label elements
 - The product is classified and labeled according to the Globally Harmonized System (GHS). • Hazard pictograms

· Signal word Danger

• Hazard-determining components of labeling: Aromatic polyisocyanate

• Hazard statem	ents
H225 Highly f	lammable liquid and vapor.
H332 Harmfu	l if inhaled.
H319 Causes	s serious eye irritation.
H334 May ca	use allergy or asthma symptoms or breathing difficulties if inhaled.
	use an allergic skin reaction.
H351 Suspec	ted of causing cancer.
H336 May ca	use drowsiness or dizziness.
	use damage to the hearing organs through prolonged or repeated exposure.
· Precautionary	
P210	Keep away from heat/sparks/open flames/hot surfaces No smoking.
P241	Use explosion-proof electrical/ventilating/lighting/equipment.
P303+P361+	P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated
	clothing. Rinse skin with water/shower.
P305+P351+	P338 If in eyes: Rinse cautiously with water for several minutes. Remove
	contact lenses, if present and easy to do. Continue rinsing.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/
	international regulations.
· Classification syst	
· NFPA ratings (sca	
	alth = 1
	e = 4

	addivity = 0

3 Composition/information on ingredients

· Chemical characterization: Mixtures

· Description: Mixture: consisting of the following components.

0	components: Aromatic polyisocyanate	30-49.9%
00077 07 0	Acute Tox. 4, H332; Eye Irrit. 2A, H319; Skin Sens. 1, H317	
110-19-0	isobutyl acetate	20-24.9%
	🚸 Flam. Liq. 2, H225	
141-78-6	ethyl acetate	10-12.49%
	 Flam. Liq. 2, H225 Eye Irrit. 2, H319; STOT SE 3, H336 	
123-86-4	n-butyl acetate	10-<15%
	 Flam. Liq. 3, H226 STOT SE 3, H336

4 First-aid measures

· Description of first aid measures

· General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

· After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist , consult a doctor.

• After swallowing: Do not induce vomiting; immediately call for medical help.

- · Information for doctor:
 - Most important symptoms and effects, both acute and delayed
 - For symptoms and effects caused by substances, refer to Section 11.
 - Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

· Extinguishing media

- · Suitable extinguishing agents: Alcohol resistant foam, CO, powder, water spray/mist.
- · For safety reasons unsuitable extinguishing agents:
- Do not use a jet water stream as it may scatter and spread fire.

 \cdot Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

Advice for firefighters

Cool by spraying with water the containers to prevent product decomposition and the development of substances potentially hazardous for health and also, in the case of closed containers exposed to flames to prevent explosions.

(Contd. on page 4)

Safety Data Sheet 29 CFR Parts 1910 1915 1926

Version number 51

Product number LNB29 Trade name: Hardener

(Contd. of page 3)

· Protective equipment:

Hardhat with visor, fireproof clothing, suitable gloves and if necessary respiratory protective device.

6 Accidental release measures

 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.
 Ensure adequate ventilation Keep away from ignition sources
 Environmental precautions: Do not allow product to reach sewage system or any water course.

Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water.

- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to Section 13. Ensure adequate ventilation.
- Do not flush with water or aqueous cleansing agents • **Reference to other sections**
- See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

· Handling:

- Precautions for safe handling
 Ensure approximation (avbounting)
- Ensure good ventilation/exhaustion at the workplace.
- Prevent formation of aerosols.
- Protect against electrostatic charges.
- Use explosion-proof apparatus / fittings and spark-proof tools.
- · Information about protection against explosions and fires:
- Keep ignition sources away Do not smoke.
- Protect against electrostatic charges.

\cdot Conditions for safe storage, including any incompatibilities

- · Storage:
 - Requirements to be met by storerooms and receptacles:
 - Store in a cool, well-ventilated area, away from heat and sources of ignition Provide solvent resistant, sealed floor.

Observe the label precautions, the expiration date for the use, if not indicated, is from delivery date of goods.

In cases where there is no reported expiration date , it means that the product must be used within 8 months.

- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions:
- Keep receptacle tightly sealed.
- Store in cool, dry conditions in well sealed receptacles.
- Specific end use(s) Those typical of the product and the instructions in the data sheet if required.

Product number LNB29 Trade name: Hardener

(Contd. of page 5) 100-41-4 ethylbenzene BEI 0.7 g/g creatinine Medium: urine Time: end of shift at end of workweek Parameter: Sum of mandelic acid and phenylglyoxylic acid (nonspecific, semi-quantitative) Medium: end-exhaled air Time: not critical Parameter: Ethyl benzene (semi-quantitative) · Additional information: The lists that were valid during the creation were used as basis. · Exposure controls · Personal protective equipment: · General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eves and skin. · Breathing equipment: In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air. · Protection of hands: Protective gloves Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation The glove material has to be impermeable and resistant to the product . · Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. · Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. · Eye protection: Tightly sealed goggles 9 Physical and chemical properties

10 Stability and reactivity

Reactivity typical of the product as indicated in the data sheet
 Chemical stability The product is stable in normal conditions of storage and use recommended
 (Contd. on page 8)

Safety Data Sheet 29 CFR Parts 1910 1915 1926

Version number 51

Reviewed on 09/18/2015

Product number LNB29 Trade name: Hardener

(Contd. of page 7)

 Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
 Possibility of hazardous reactions

Reacts with oxidizing agents.

Vapours may form explosive mixtures with air

- Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products:

in case of possible formation of combustion: Carbon monoxide and carbon dioxide

11 Toxicological information

· Information on toxicological effects

May cause allergy or asthma symptoms or breathing difficulties if inhaled. • Acute toxicity:

53317-61-	6 Aromati	c polyisocyanate
Oral	LD50	5001 mg/kg (rat/szczur/mouse/souris/Maus/ratón)
110-19-0	sobutyl a	cetate
Oral	LD50	13400 mg/kg (rat/szczur/mouse/souris/Maus/ratón)
Dermal	LD50	17401 mg/kg (Con)
Inhalative	LC50/4 h	31 mg/l (rat/szczur/mouse/souris/Maus/ratón)
141-78-6	ethyl aceta	ate

· Bioaccum · Mobility	n environmental systems: nulative potential No further relevant information available. in soil No further relevant information available.
· Additional · General i	ecological information:
	azard class 2 (Self-assessment): hazardous for water
	llow product to reach ground water, water course or sewage system.
Danger t	to drinking water if even small quantities leak into the ground.

· Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Hand over to hazardous waste disposers.

Dispose of contents and container in accordance with local state and federal regulations.

· Uncleaned packagings:

• Recommendation: Disposal must be made according to official regulations.
