

SAVE ON VALUABLE TIME & LABOR COSTS WITH **AP REDILAM**

About AP Redilam

Atlantic Plywood's Redilam service provides a unique custom panel assembly solution to our fabrication and millwork customers. Laminates, cores, substrates and veneered panels have been Atlantic Plywood's business since our inception in 1974 and it's one of the main reasons we're *the trusted supplier* of panel products in the Eastern US.

With access to virtually every core and substrate for every application, and capable of pressing any quantity of panels from 25" to 60" in width and up to 12' in length, APC Redilam provides a unique opportunity for our customers to create and fabricate their custom designs with custom materials. With Redilam, we also can offer cut-to-size and edge banding of your custom panels, providing more labor and cost savings!

Why Choose Redilam?

- ✓ We can press any and all major laminate brands such as Formica®, Pionite®, Wilsonart®, Nevamar®, all backers, phenolic-backed metal laminate and even 10, 20 and 30 mil veneers
- ✓ Core options include: MDF, PBC, Medex, Veneer Core, Foam Core, Fire resistant PBC to meet any spec such as NAF, Fire-rated, FSC, Exterior and more
- ✓ We can laminate all standard thicknesses up to 5'x 12'. For a special thickness, please call customer service to confirm
- ✓ We use Choice Brand Adhesives for laminate bonds that are built to last
- ✓ No quantity too small. Just ask!
- ✓ Short lead times and experienced staff

ONE-STOP Service

AP Redilam is a unique custom service offered to Atlantic Plywood customers, helping alleviate extra costs in labor and materials. Instead of ordering laminates, cores, adhesives and edge-banding, simply provide us the spec and we do the pressing for you, saving valuable time and labor costs.

LIMITLESS Combinations

With a huge selection of in-stock laminates, markerboards, metal and wood veneers and more, AP Redilam can provide custom panels for your fabrication and millwork needs. We'll even cut them to size and edge band saving valuable labor costs.

FAST DELIVERY to all APC Locations

As our network of locations grow, our capabilities also expand. We can supply custom AP Redilam panels to any of our locations in the East, South East or Midwest, often in two weeks time. Need it faster? Just ask!
