TRESPA® TOPLAB® *PLUS*

In challenging workplaces, nothing less than excellence is acceptable in terms of hygiene, avoidance of contamination, sustainability, ergonomics and safety. This is even truer for work surfaces, which need to guarantee consistent reliability under stress each and every day. Trespa® TopLab® *PLUS* has been specially engineered to provide durable and high-performing work surfaces for demanding environments such as chemical, physical and analytical laboratories, where every detail must be the silent ally of the scientist, ensuring peace of mind and aiding concentration.
