Your One-Stop Source for
Architectural Wood Veneers

BLUEPRINT MATCH | SEQUENCE MATCH | CENTER & BALANCE
CUSTOM SKETCH FACES | SANDED CROSS-GRAIN

Atlantic Plywood is a partner you can trust to provide high-quality architectural veneers for your commercial or residential project.

We have the resources and expertise to make your job a success from start to finish.

Save time and money on your next job, and let us help with:

SOURCING MATERIAL

Above and beyond what we stock in-house, we work with all major veneer suppliers and can directly access high-quality products at a **lower cost**. Get expert guidance, a live log sample for your architect or homeowner, and a custom mill drawing for approval on Blueprint Matched jobs.

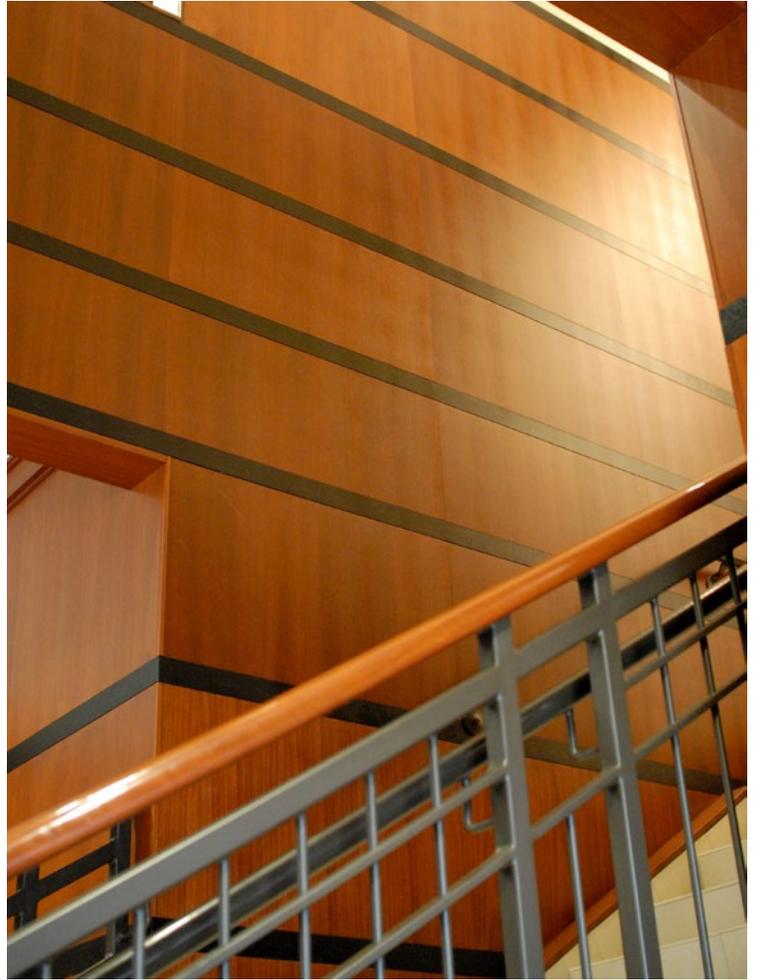

PRODUCTION

A specialist from our Architectural Panel office will partner with you as we assemble your flexible sheets, laid-up panels and doors to your specifications. Custom capabilities include **Blueprint Matching, Sequence Matching, Center & Balance Matching, Custom Sketch Faces, Sanded Cross-Grain, Edgbanding** and more.

DELIVERY

Our dedicated truck ships from our mill every week, so your order arrives on time with **no added charges for freight and crate**.

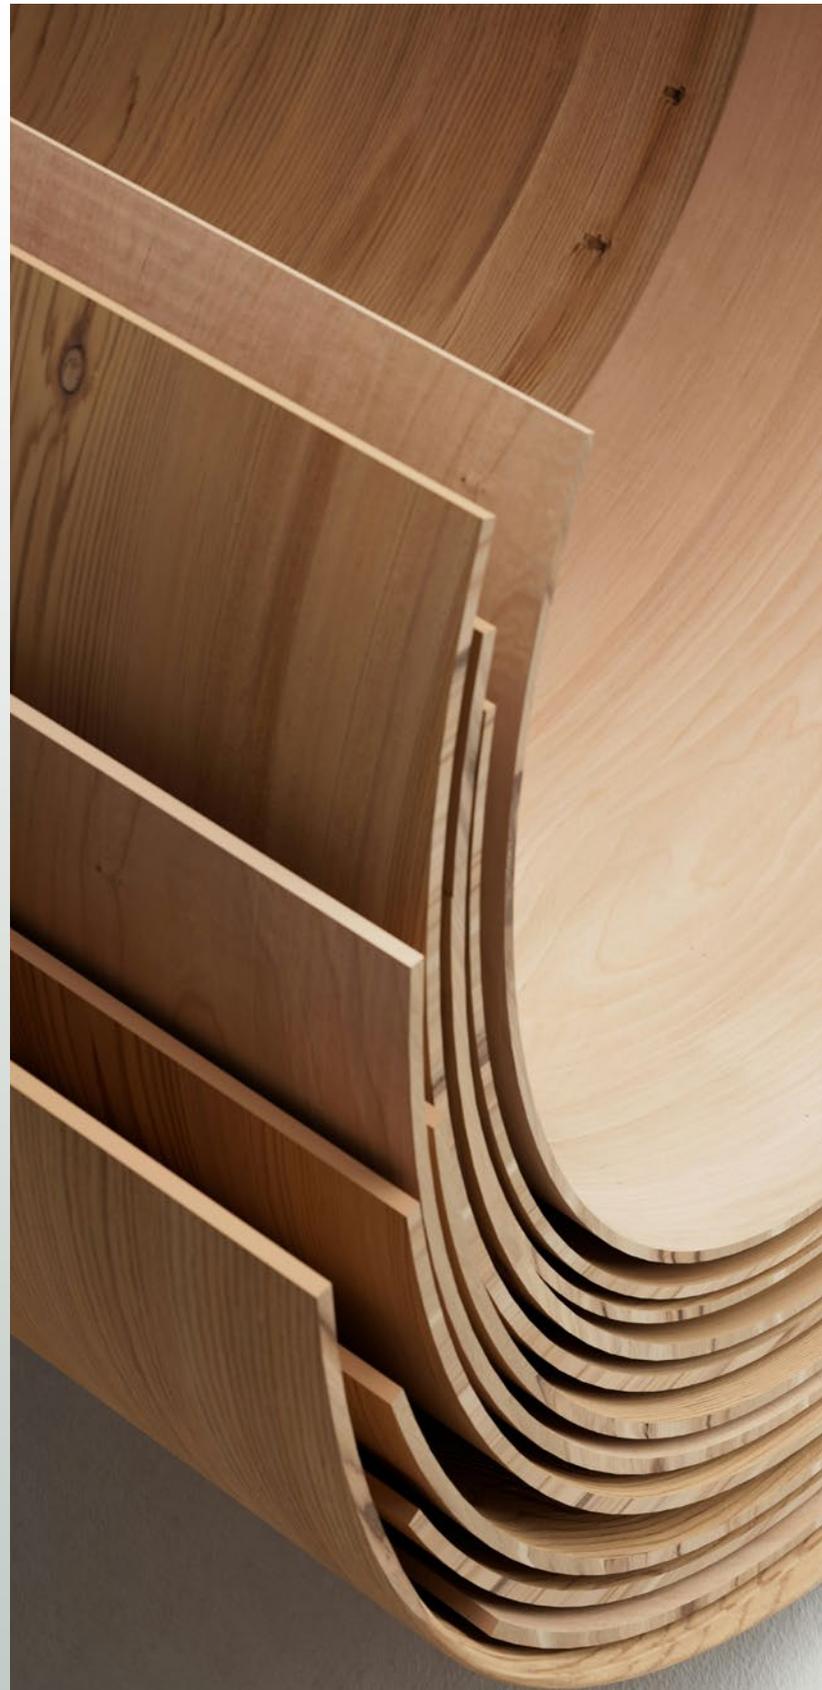

FLEXIBLE Veneer Sheets

Our veneer offerings are second to none. No other supplier in the area can provide what we do.

From the finer grades of domestic species to the widely exotic, our suppliers buy directly from sources in Europe, cutting out the middleman and providing you with a **higher-quality product at a lower price.**

We work with **all specified veneer suppliers** to meet the requests of architects and designers. We can provide a live log sample to show the architect or homeowner exactly what will be used on the project.

Our full range of custom-made sheet veneer includes **10 mil, 20 mil, 2-ply wood-on-wood, and poly-backed, all available in many sizes.** We can even provide cross-grain sheets with proper sanding.

FLEXIBLE SHEETS

Plywood: Specified flitches
Backers: 10 & 20 mil, 2-ply, poly
Sizes: Many sizes available

LAID-UP Veneer Panels

Specify your veneer face, panel core, size and customization.
Then let us take care of the rest.

In addition to accessing all your veneers, Atlantic Plywood stocks all the popular core choices you may need, reducing lead times.

STOCKED CORES INCLUDE:

- **Particleboard (PBC)**
 - Fire Rated
 - FSC® Certified
 - Moisture Resistant
 - NAUF
- **Veneer Core**
upon request
- **Medium Density Fiberboard (MDF)**
 - Fire Retardant
 - Moisture Resistant
 - NAF
- **Lightweight Fiberboard**

CUSTOM CAPABILITIES:

- Full Blueprint Matched projects, cut to size
- Passage doors sequenced into wall project
- Cross-grain panels with proper sanding
- Edgebanding with veneer tape or internal bands of architectural-grade lumber $\leq \frac{3}{4}$ "

LAID-UP PANELS

Plywood: Specified flitches
Cores: We stock all popular choices, reducing lead time
Sizes up to 5' x 12'

ARCHITECTURAL Doors

**There is no
“standard” model.**

We manufacture
your custom doors to
your specification.

We are a manufacturer that can adapt to any specification for thickness, height, width, and face veneer. Specify your size, core, veneer, finishing, and machining and your doors will arrive ready to be installed.

5-Ply Architectural Wood Flush Doors: PBC and LSL Core Doors; Plastic Laminated Doors; up to 90-minute WH Label Doors; AWI Premium Grade; factory machining & pre-finishing available.

Solid Wood Doors: Custom Raised Panel or Inset Panel; Interior, Exterior, or Entrance; factory machining & pre-finishing available.

Door Accessories: Wood Beads, Moulding, Louver, Fusible Link Louver, Astragal, Door & Transom Rabbet, Radius Edge.
